MISSION COVERAGE SUMMARY

Mission B 1473
12 September 1958

Summary of Coverage

25X9

Quality

Quality of target images for photo interpretation is generally good, with some fair and a few poor images. Early in the mission there were some scattered clouds, while dust and haze appear at intervals throughout the coverage.

Map References

USAF World Aeronautical Charts, 1:1,000,000
426 Cyprus
447 Suez Canal
448 Libyan Plateau
544 Strait of Jubal

Categories

Information is listed by categories, as shown in the Table of Contents. Arrangement within categories is as follows: Airfields and Urban Areas -- alphabetically by (1) country and (2) city or installation; all other categories by (1) country, (2) WAC number, and (3) degree square. A geographic index follows the text.

Coordinates

Reference to each item by a single pair of coordinates is a matter of convenience in data recall. The coordinates used are those of the southwest corner of the one-minute square in which the item occurs. In referring to certain targets, such as roads, the coordinates of the approximate mid-point are listed in the heading and additional coordinates may be cited in the description.
